Golf Cart Safety

We are seeing a shocking number of adults allowing their children to drive golf carts. Management, staff, and park patrol will now be strictly enforcing a zero tolerance for children driving carts - we will be taking carts from kids and immediately locking the carts up. Management & Owners could ask the cart to be permanently removed from Pike Lake property at their discretion. We are not the only ones watching and have received complaints from other campers and residents. We ask for any further issues to continue to be reported to the Office.

There are many bad bends, corners and blind spots in the park - we URGE everyone to SLOW DOWN when driving through Pike Lake. This is a family campground with many children playing. Some golf carts can't go fast, but this doesn't mean they need to be driven at max speed.

Upcoming Special Hours at the Clubhouse

Sat. Aug. 10: Limited seating available in the clubhouse for the evening of Saturday August 10 from 6pm to close due to a high volume of bookings. Please call ahead before choosing to dine with us this Saturday.

We apologize for any inconvenience this may cause

Careful with Campfires

Please be aware, the grass and ground are getting extremely dry. Although there is no fire ban issued yet, we need to be cautious; campfires should always be maintained and never left unattended. Keep a bucket of water or hose on hand to extinguish the fire if it gets out of control, and always fully extinguish when finished with the fire.

Please continue to Conserve Water

Our area has been in a drought for quite some time now, and while a water ban has not been put into place, there could be one coming soon. In the meantime, we urge everyone to be mindful of their water usage:

Please be conscious of your resources and do not over-use them. Water usage of course always goes up on long weekends when we have a high volume of people in the campground; help us conserve by refraining from washing your trailer, lawns, cars, decks, driveways, etc. and wasting vital resources and creating poor water pressure.
