

Recycle disposal is a “Single Stream” system. The recycle bin behind the motel has been labeled as recycling on the front, and on the side you will find the bin is labeled to help determine what you can and cannot place inside. **FLATTEN YOUR CARDBOARD BOXES so these bins are used to full capacity. Do not include food waste, films, plastic bags, plastic wrap or foam cups or containers as this is considered garbage. Please work with us to ensure your waste and recycling are put into the proper bins. This will keep the price of garbage removal to a minimum as prices are skyrocketing. If this is not adhered to, we will have no choice but to raise the garbage fee portion of camping fees.** Do not throw your bags above the bins, waste is to be placed in the bins through the doors on the side. Do not leave your waste, or recycling items outside of the bins as this is both messy and attracts animals and bugs.

Garbage bins are for household garbage only. Do not dispose of electronics, appliances, furniture, propane tanks, etc. in these bins. Any large waste for disposal is NOT to be dumped at any Pike Lake garbage receptacle, either in the bin or outside. This includes anything from fridges, BBQ’s, couches, propane tanks, heaters, etc. **To correctly dispose of large waste, a work order can be made in the office, and for a charge, Pike Lake staff will take away the garbage IF it is left at the side of the road in front of your unit.**

Otherwise, we stress that you take your large waste directly to the Harriston Transfer Station, at a fee. The Harriston Transfer Station is open on Tuesdays, Thursdays & Saturdays from 8AM – 4PM. There is a fee for dumping. Further information on Harriston fees etc. is available at the office.

Garbage bins and dumpsters behind the Pike Lake Motel are camera monitored; anyone caught putting anything other than household garbage in the dumpsters will be invoiced \$100 + HST to their accounts.

As the relocation of the waste bins will increase traffic on Pike Lake Road, we ask that you please be cautious – golf carts and pedestrians cross Pike Lake Road at the top of the hill between the Clubhouse parking lots. **PLEASE DRIVE SLOW through the Motel parking lot – children are often crossing the parking lot to the driving range and mini-putt.** We understand *ONLY* the portion of trail between the front maintenance shed and the Pro Shop is used by golf carts to access other Pike Lake buildings (ie. Pro Shop, Motel, etc.). We ask that you please be respectful and courteous to the golfers on the course, and cautious when crossing Pike Lake Road. Golf carts are not road worthy – you CANNOT drive your golf cart on Pike Lake Road.

HOUSEHOLD GARBAGE (Food waste, plastic bags, foam cups etc.)	Dark Green Bin – Marked WASTE
