

Please work with us to ensure your waste and recycling are put into the proper bins. This will keep the price of garbage removal to a minimum as prices are skyrocketing.

*If this is not adhered to, we will have no choice but to raise the garbage fee portion of camping fees.*

Do not throw your bags above the bins, and do not leave waste of any size on the ground outside the bins.

**THESE BINS ARE TO BE USED FOR WASTE PRODUCED WHILE AT PIKE LAKE – CAMPERS, DO NOT BRING YOUR WASTE FROM YOUR PRIMARY RESIDENCE TO DISPOSE OF HERE.**

**Garbage bins and dumpsters behind the Pike Lake Motel are camera monitored; anyone caught putting anything other than household garbage in the dumpsters will be invoiced \$100 + HST to their accounts.**

Please use caution when driving to the waste bins: golf carts and pedestrians cross Pike Lake Road at the top of the hill between the Clubhouse parking lots. **PLEASE DRIVE SLOW through the Motel parking lot – children are often crossing to go to the driving range and mini-putt.** The portion of trail between the front maintenance shed and the Pro Shop should be used by golf carts to access other Pike Lake buildings (ie. Pro Shop, Motel, etc.). We ask that you please be respectful to the golfers on the course, and cautious when crossing Pike Lake Road.
